

**"For Years You Have Been Hearing About Health Risks from Cell Phone Radiation  
You Will Learn More About Both Sides of The Issue From Our WebSite. . .  
We Have The Solution for Cell Phone Radiation."**

---

This is a very important issue that you should take strong notice of! So pay close attention to what I am going to tell you - it just might affect the rest of your life . . .

Did you know that many mobile phone manufacturers have patents on safer mobile phones??? Manufacturers of cell phones may be making the phones slightly safer while trying to keep you from knowing? Have you ever thought of that? They also MAY NOT BE! For some reason, we have been led to believe that ALL telephones are completely safe.

If they did know there was harm (*which is fairly obvious if you ask me*) they sure would not want to be open about it because there are so many pending lawsuits! Remember when the cigarette companies had all those lawsuits about how they "knew" that cigarettes caused cancer and they didn't say anything. Sound familiar?

The Bottom Line is that if *YOU* could do something about this danger *YOU* probably would, Right?

I mean, seriously, really . . . if you could make some simple change that the manufacturers of these things are holding back on - and it did not break your bank account, you'd probably go ahead and take that important step . . . am I correct?

Well, here's your chance to take that step! Finally, high-tech German engineering brings us a solution to our wireless woes. It is a small device that will fit inside the battery compartment of your phone (*no matter who makes it or what model you have*). It's called the "**Green 8**". Install it and you will feel relief from certain feelings that you may have from your cell phone. You may be very sensitive to your cell phone and know when it is bothering you - install a "**Green 8**" and you'll feel better.

Maybe you are one of the lucky ones who are not so sensitive and you do not notice much when you use your cell phone. Keep in mind that there are some studies that have indicated that the effects of the radiation may be cumulative - so you may feel it more after using it for an extended period of time! Unfortunately, sometimes we cannot feel what's really going on inside of us.

*"I received a Green 8 for Christmas in 2003, and I must say the most noticeable change is that my phone itself doesn't become so hot on long phone conversations. My assumption is that this very noticeable change is conducive to all the benefits I am receiving from less cell phone radiation. When a person uses a cell phone as much as I do - over 5 hours a day - you simply MUST have something to protect you from cellular damage."*

Ravi Brounstein - Eugene, Oregon

As stated above, the general public has been led to believe that telephones are safe - should we really consider wireless phones the same?

Back when I was a child, the telephone company was a trusted name. Bell telephone was a household word. We relied on Bell, and Bell gave us so much convenience and benefits we couldn't imagine life without the telephone. This is how we came to trust in the telephone company. You might remember when Bell Telephone was forced to split up in order to open up the telephone industry to competition. Before long there were a large number of telephone companies. However, you still had a sense of trust for these companies, didn't you???

What has changed since then? You were led to believe that a wireless phone is a phone that you can rely on and trust; just as you trusted all the other phones that you grew up with. *But are these phones really the same?* There were never any 'rumors' that classic "land line" telephones caused cancer! Have you ever heard any such rumor? No, of course not! But if you do a search for cell phones and cancer on [www.Google.com](http://www.Google.com) you get over 700,000 pages of related content! Is that any indication that the conclusion could go either way?

Regardless of whether the lawsuits finally settle one way or another, the fact remains that people often experience symptoms from using cell phones that include headaches, hot ear, and fatigue, etc.

**Do You Live Near One Of These Towers?**

Cell Phone Transmitters are hidden almost everywhere these days, but we only "see" these Big, Tall Ones . . .

Ask us about what you can do about it!

Now, I know you're probably skeptical – after all, why should you believe what I say? That's normal and healthy. Let me give you some good reasons to substantiate what we claim. I'm not new to this. You may have seen, or heard about our company, since we have been around for a number of years, and we have thousands of happy customers. Here is what one of our customers said about her **Green 8**:

*"The Green 8 is a wonderful radiation shield for cell phones. My cell phone stays cooler, my migraines have been dramatically reduced in frequency and duration, and I feel much more relaxed while talking on my phone. I would recommend it to everyone that uses cell phones. I am now making them available to all my friends and family to help keep them healthier."*  
Faun Parlman, San Diego, CA

*"I use the Green 8's on my home cordless phones, and would not consider using a phone without them. My two children are so sensitive to cell phone use that they would get headaches whenever they would use them. After installing the Green 8 in each of their phones, they now have corrected the headaches and sensitivity issues. Although I do not get the headaches, I know the Green 8 works, and I use them in my cell phone and cordless phones."  
Sheila Liberman, Pharmacist and President of RPh On The Go USA, Inc.*

**Following Is A Summary Of The Benefits You Receive When You Install A "Green 8"**

**Decreases Cell Phone Signal Interference**

You will hear your calls better with less noise.

**Your Phone Will Produce Less Heat**

Less "Hot Ear" on long calls and your battery will last slightly longer.

✓ **Decreases Chaotic Energy Emitted From Cell Phone.**

If you experience headaches while talking on your phone they will decrease or go away.

✓ **Phone Will Emit Cleaner, Harmonic Energy**

If you experience fatigue it may be related to EMF, many people report relief.

✓ **Peace of Mind for You and Your Family**

You can rest assured that you are doing what you can to help your friends and family right away.

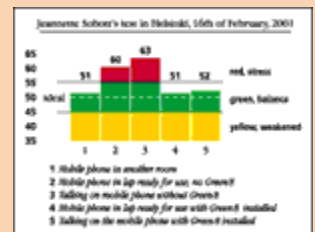

The **Green 8** has been through years of research, development and testing so you can rest assured that it will continue to work for you once you install it. The **Green 8** has undergone significant testing in Europe, which shows that it keeps the body in energetic balance. These tests are performed with the latest *EAV (Electro-Acupuncture according to Voll)* and *EDS (Electro-Dermal Screening)*, which is one of the emerging fields (along with dark field microscopy) of research for noticing early signs of body function imbalances. Many of these imbalances are thought to be early signs of illness and disease. Most of these instruments are developed in countries outside of US FDA jurisdiction where research is unimpeded by closed-minded bureaucrats. These testing instruments are used by many medical doctors within the US, and most of them cost between \$15,000 and \$20,000 US. They provide easy to comprehend (by an experienced practitioner) graphs, displaying results depicting the energetic balance state of a particular organ based on the *Traditional Chinese Medicine (TCM)* model as well as *Electro-Acupuncture* according to Voll (EAV) points.

### What Does The Green 8 Foil Do?

It neutralizes the radiation from a cell phone by creating a form (*holoform*) for the radiation to propagate through. Normally radiation is very chaotic and noisy and full of distortion. This noise interferes with our electrical bodies (all animals are electro-chemical) so we get fatigued. The **Green 8** is simply placed inside your cell or cordless phone's battery compartment and the radiation is neutralized. The **Green 8** and PST products organize the radiation into a coherent signal with less noise so that the body can cope with easily. This is why we feel less fatigued when we use these products. The testing shows that the human body function is maintained at a normal, healthy state.

This graph on the right shows one such test that was performed in Helsinki, Finland in 2001. The graph shows energetic balance or healthy body function when the reading comes between 45 and 55. The first reading of 51 is a baseline reading that shows balanced body function with no radiation nearby. The second reading of 60, which shows abnormal body function, was taken when the cell phone was on but not a calling mode (in the individual's lap). The next reading of 63 shows another stressed or abnormal body function. This reading was taken while the phone was transmitting a call, showing us that the body function state while a cell phone is "ready to receive" but not calling is almost as electro-magnetically stressful as a phone which is actually making a call! The 4th and 5th readings show that when the **Green 8** is installed the body function is back in balance – both while in "ready to receive" and "making a call" mode. These tests were performed by a doctor who was using the "Best System" designed by the BioMeridian company.

[Please contact HealthStyles4U for more information regarding these tests.](#)

[For more information about the Green 8 , and to purchase a Green 8 product, Click Here.](#)

This device has worked with all the cell phones that we have run across, so there are no known compatibility issues. We recommend placing the **Green 8** foil underneath the battery or inside the battery compartment. The timing is crucial! There is a reason you are reading this page right now . . .

Have you noticed that there is not much to think about here? You are privileged to be reading this right now and be in a position to take action at protecting yourself. You only need to purchase this product once – and you can transfer it from phone-to-phone whenever you decide to get a new phone. The **Green 8** foils never wear out! Install it once and it will keep working for life!

Install the **Green 8** in your phone and in all of your family members' or friends' phones, and the **Green 8** goes to work right away! It creates an organized pathway for the radiation to flow through. Normally the radiation just flows randomly, creating a noisy radiation field. By creating this clean pathway, the **Green 8** significantly decreases the noise level in the field. The effect is that your body will "feel" or absorb the radiation differently.

This is a Breakthrough that we must give German Engineers credit for. It took years of research and now the **Green 8** is available for your benefit. Order your **Green 8** today and make your cell phone harmonic. Clean up the "chaotic energy" that is probably slowing you down in your busy workday.

**WARNING:**

**DO NOT purchase any Cell Phone Radiation Neutralizer unless it meets the following 3 criteria:**

1. **It must lower the temperature of the phone when on long conversations.**
2. **You must feel beneficial effects from using your cell phone after installing the product.**
3. **The product must guarantee your satisfaction so you can decide for yourself if it is working for you. You should have plenty of time to test out the product.**
4. **The product must provide you with an unconditional 100% money back guarantee.**

**100% 90-Day Money Back Guarantee**

If for any reason you are not satisfied with the Green 8, simply send it back for a quick refund (*shipping not included*). No Questions Asked!

**Protect Yourself Now!!!**

---

Following is a list of 100 articles and studies concerning the problems with cell phone radiation. Please review this list and read some of the most revealing and startling information that is being discovered regarding the health effects of this problem.
